

O'Neill's.

CLEARING SALE OF Dress Goods Remnants AT HALF PRICE.

An unusually large collection of Remnants have accumulated this season and we desire to close them out at once. The assortment comprises all this season's most desirable fabrics and colors, also black. There are different lengths to pick from—some only large enough for a waist, others long enough to make an entire costume. In order to dispose of the entire lot at once we have marked them for sale tomorrow morning at HALF PRICE.

Early Buyers Will Secure Best Choice.

Sixth Avenue, 20th to 21st Street.

STRONG CREDITORS PUT IN CLAIMS.

Woman Gets Order Restraining the Heirs, and Two Firms Bring Action.

Three more court actions were begun today as the result of the crash of William L. Strong & Co. One of them was directed against the heirs of the Strong estate and the other two against the firm.

Even if the entire estate of Mr. Strong should be wiped out, his family will not suffer. Mrs. Strong owns the family residence, and her personal fortune has never been connected with that of the estate.

The son, Major Putnam Bradlee Strong, is a successful business man and able to take care of himself. The other child, Mrs. Albert R. Shattuck, is in no need of money, as her husband is wealthy.

Judge Lacombe, in the United States Circuit Court, on the application of Elizabeth T. Griswold, of Philadelphia, Pa., granted a temporary injunction against Mary U. Strong, P. Bradlee Strong and Albert R. Shattuck, individually and as executors and trustees of the will of William L. Strong, restraining them from disposing of certain mortgages, bonds, stocks and other securities claimed by the complainant.

Invested the Money.
The bill of complaint states that prior to Nov. 2, 1909, the complainant, Griswold, was the owner of a certain amount of money which she had invested in the Strong estate.

The complaint declared that on Tuesday last she made a demand on the executors for her property and was met with a refusal.

Mrs. Griswold did not mention the total amount of money she entrusted with Col. Strong.

A temporary injunction was granted and a hearing set for tomorrow afternoon.

Receiver Must Pay.
Justice Andrews, in Supreme Court today, granted an order on the application of the Clinton Mills, a Connecticut corporation, directing Edward A. Treat, receiver for the firm of W. L. Strong & Co., to pay to it \$12,348.61.

The application stated that about Nov. 15 the Clinton Mills shipped a bill of goods to Strong & Co., to be sold on commission, and that Strong & Co. deposited the money received from the sale of the goods with the New York Security and Trust Company, 16 Wall Street. There remained a balance in the Trust Company of the amount asked for.

A similar order was granted on application of the Winthrop Mills for the

payment of \$13,177.29 due to that corporation under like contract.

The stories of the amount of property held by Mr. Strong in his own name are greatly exaggerated.

"It is true she owns the house we live in, 12 West Fifty-seventh street, which may be worth \$75,000."

"She also has a small income from property left her by her grandfather, Israel, a Southern planter."

"I know nothing about the report that comes from Philadelphia fixing the liabilities at \$5,000,000. My opinion is that the liabilities are not so large."

Receiver Treat knows about that matter. The receiver had his force of experts busy over the books struggling to straighten out the mix, but making little headway.

The Stout Mills at Stottville, are also in the hands of a receiver, Smith Thompson, who is President of the Farmers' National Bank of Hudson, having taken charge as receiver. He hopes to keep the business going and eventually place the mills on a solid financial basis.

Partners in the firm of Strong & Co. held a conference today with Receiver Edward A. Treat in the store at 25 North street. Attorney A. H. Van Brunt, of the firm of Butler, Niman, Joline & Mynderse, representing the Strong interests, was present.

To this conference Mr. Van Brunt was busy at his office with creditors. It was believed that a compromise could be effected in regard to the note for \$100,000 which is due today, and which was the principal cause of the sudden application for a receiver.

Representatives of the Stout Woolen Mills, of which this note was executed, were present.

guns and cartridges under their two contracts with the Government has caused serious delay.

Contracts have been made for 1,150,000 rounds of smokeless powder, of which \$500,000 has been paid for the use of sea-coast guns and mortars.

During the last year there were completed 12,121 rifles, 28,121 ten-inch rifles, 24,121 twelve-inch rifles, making a total of such heavy guns now ready for our defense of 64.

Work on the 16-inch rifle has been retarded, because a larger furnace was needed.

NEW COLLECTOR AT MANILA.
Gen. Smith, of San Francisco, said to have been named.

SAN FRANCISCO, Nov. 15.—Information has been received that Brig-Gen. James F. Smith, of this city, has been appointed Collector of Customs of Manila.

Gen. Smith went to the Philippines as Colonel of the First California Volunteers and is now Governor of the island of Negros.

FILIPINO WAR KILLED HIM.
(Special to The Evening World.)

KNOXVILLE, Tenn., Nov. 15.—Worry on account of his failure to hear from his two sons, who are serving in the army in the Philippines, and sorrow over his wife's death, have caused the death of Henry Thomas of Sevier County.

The man died of a broken heart.

WHEAT RULED LOWER.
There was less selling pressure on wheat at the opening today and a better local demand. Later in the day the market eased off a little. Corn was steady, but less active.

New York's opening prices were: December wheat, 78 1/4; May wheat, 81 1/4; March wheat, 81 1/4.

STOCKS STRONG AND LIVELY.

Linseed Oil Still Erratic and Market Very Bullish.

The stock market today was strong, though with a smaller volume of business than has been the rule and less regularity. The initial prices displayed sharp margins to the good, extending to 2 points in Metropolitan Steel Railroad, 1 1/2 in Union Pacific preferred and 1 1/2 in Federal Steel common and preferred.

From the outset the market was distinctly bullish. New Jersey Central led the advance and at 10:45 was up 3 points and still gaining.

Linseed Oil preferred continued its erratic course, and after its opening gained 2 1/2 per cent to its price. It then fell to 4 1/4, a drop of 1 1/4 points, and then fluctuated violently within a margin of 1 1/2 per cent.

Trading in the industrial shares altogether overhauled that in the traction and railroad quarters, and showed a much firmer tone.

American Steel & Wire, Continental Tobacco common and preferred and American Tin Plate were conspicuously strong and were up from 1 1/2 to 2 points on a large volume of business.

Prices eased off for a time after midday, causing Baltimore & Ohio, Northern Pacific and Sugar to lose all of their early rise. The oranges, including the Atchafalaya, then came into large demand and rose from one to two points, the latter figure for Burlington and Northwestern.

Sugar, People's Gas and New York Central rose about 1 1/2 each. The market showed a tendency to react, a few of the industrials reacting a point or more. The advance in the Atchafalaya was renewed, but without much effect on the general list.

The closing was active and rather easy, but notable net gains remained for most stocks.

The total sales of stocks today were \$6,000,000 and of bonds \$2,000,000.

"WORLD WANTS WORK WONDERS"

658 BIG GUNS FOR OUR COAST

Over \$16,000,000 Has Been Spent on Defenses of Seaboard.

(Special to The Evening World.) WASHINGTON, Nov. 15.—Gen. Bufington, Chief of the Ordnance Bureau, made his annual report today, which shows an expenditure of \$16,300,000 out of \$23,300,000 appropriated, and that we have 658 heavy guns for our coast defense and new smokeless powder, which has proved successful.

These parts of the report replying to attacks on the style of guns and cartridges are contained in appendices not available. In the matter of field guns a contract for 200 of these weapons was held up on the recommendation of the Board of Fortifications.

As to the disappearing gun carriage Gen. Bufington says:

"It was presented to the Ordnance Department as a problem to be solved, and the present service carriage is the best solution it has been able to find. No far as experience has gone it has worked well, and in fact much more satisfactorily than was anticipated."

"The Department is not by any means wedded to the disappearing system. It accepted it from higher authority as a condition, to which it was required to conform, but it is ready to take up from the proper authority any other system which it deems its energies to making it successful."

Gen. Bufington says that the failure of the company to deliver 15-pounder
